

Spring 1993

## Stan Moe '32 to receive UND Honorary Degree

Stanly A. Moe '32 will be receiving an Honorary Doctorate Degree in Engineering from the University of North Dakota on Sunday, May 16th, during commencement exercises. Only a handful of graduates have been so honored by the University and the North Dakota University System.

Stanley A. Moe is one of the six founders of Daniel, Mann, Johnson and Mendenhall (DMJM), one of the world's largest architectural, planning, and engineering firms. Stanley Moe is a pioneer in his profession, expanding architecture and engineering services to an international scale, traveling over the world to establish more than two dozen foreign offices. The imprint of Moe's talents are also firmly imprinted in the United States Space program, since he directed the design of the prototype Titan I facilities. Retired since 1979, he has remained active professionally through consulting. The 1984 Olympic facilities in California and the design of 400 million dollar airport in Algiers, are two such consulting projects he completed while in retirement.

A native of Ross, North Dakota, Moe attended UND from 1930 to 1932. At UND, he studied engineering and joined the fraternity. He then transferred to the University of Minnesota with a Bachelor's degree in architecture.

(STAN MOE, Page 3)

## Delta Xi named Top Fraternity at UND!

During Greek Week '93, Delta Xi was presented with the President's Commendation of Greek Excellence Award, recognizing excellence in programming from March 1992 to February 1993. This is the first time in recent memory that the Delts have been named the outstanding fraternity on campus. Two sororities, Gamma Phi Beta and Pi Beta Phi, were given higher honors, named to the President's Award of Greek Excellence. UND President Kendell Baker presented the Awards on April 19th.

Two months ago, Delta Xi was named to the Court of Honor of Delta Tau Delta recognizing it as one of the top 20 chapters in the nation. It is the second highest award given by the Fraternity. It is the Chapters second Court of Honor in two years, and third in the Chapters history, the other coming in 1985. The chapter has also been recognized nationally as having one of the top programs, in Delts Talk About Alcohol, Educational scholarships and awards, Alumni relations, and being the first to operate a local leadership academy.

The chapter has been working hard to be a chapter of excellence, and want to thank our Alumni for your support and encouragement. We benefit greatly by the advice and counsel provided by the many alumni who serve on the House Corporation, Education Foundation, and for our chapter advisor Tom Hanson. Alumni contributions not only provide academic (DELTA Xi, page 2)

Spring Newsletter  
Delta Tau Delta Fraternity  
Chapter of Delta Xi  
est. 1935

University of North Dakota  
2700 University  
Grand Forks, ND 58203  
(701) 775-7234

I would like to give a special thanks  
to those who helped make this news letter a  
success.

Steve Frankeberger  
Nick Tomlin  
Brian Maloney  
Shawn Gray  
And of course Bruce Gjovig

If not for their help this newsletter would  
never have made it to print.

Michael Howell '96  
Alumni Relations

(DELTA Xi, Cont.) scholarships and  
achievement awards that encourage us to excel,  
but by also funding programs that help us gain  
the skills we need to operate effectively and  
efficiently - all while having fun and enjoying  
each other's company. Your support has helped  
us to get to the top - THANK YOU VERY  
MUCH.

To receive UND's President's  
Commendation of Greek Excellence award, the  
chapter needed to be ranked as excellent in nine  
of twelve categories of criteria. The twelve  
categories are: Scholarship, membership  
recruitment, member/chapter education, chapter  
& financial management, chapter conduct,  
alumni relations, campus involvement,  
philanthropy, university/Greek relations, IFC  
participation, athletics/intermurals, and  
involvement with the national Fraternity. The  
awards were presented in the order of  
excellence, allowing the chapter to know their  
standing on campus. Delta Tau Delta was also  
recognized last year with the President's  
Commendation Award, being one of the top  
three fraternities on campus.

## DTAA goes to U. of Washington

This is an exciting year for DTAA.  
This past April the Delta Xi DTAA instructors  
were invited out to the Gamma Mu Chapter, at  
the University of Washington to teach the  
DTAA program to their chapter. Gamma Mu is  
a two time Hugh's Shield award winner and was  
excited to have the Delta Xi instructors come out  
and kick off their DTAA program. Delta Xi  
was recognized by the national fraternity as the  
leader in the DTAA program.

Barry Ellinger, Dave Sickels, and  
myself were the three Delta Xi instructor that had  
the privilege of going. We were met with great  
welcome, and we had an awesome visit with our  
brothers on the west coast. The turnout was  
incredible, the entire chapter was there, eager to  
listen to what the DTAA program was about.  
We had a great session with Gamma Mu, and  
they were excited to have us come out and teach  
their first session of DTAA.

We are looking forward to having a  
great fall session sometime in October. I would  
like to thank the Gamma Mu chapter for giving  
us, the men of Delta Xi, the chance to come out  
and teach the program to them. We, the men of  
Delta Xi plan on keeping up with our reputation  
as the best DTAA program in the country.

Nick Tomlin '94  
DTAA Chairman

## A new Executive Committee

On April 26, 1993 the men of Delta Tau  
Delta elected the new officers to the Executive  
Committee. Their terms will run through  
November of this year.

President: Michael Otremba\*  
Internal Vice-President: Aaron Karow\*  
External Vice-President: David Sickels\*  
Treasurer: Chuck Gibbons\*  
Director of Academic Affairs: Shawn Gray  
Sergeant-at-Arms: Matt Oosting  
Recording Secretary: Jerimiah Hall  
Corresponding Secretary:  
Steve Frankeberger  
Assistant Treasurer: Marc Tebelius\*

## A Women pilot pioneer

Delt "sweetheart" Jean Haley Harper '75 flew her first trip as a captain on United Airlines with her husband on November 9, 1992. The flight was the airlines first husband-wife flight crew in which the pilot was the later and the co-pilot being the former. Jean was United's third woman pilot, hired just weeks after two other female pilot's were hired.

Jean dreamed of being a pilot since she was nine years old. She remembers writing an essay explaining she wanted to be an airline pilot, but received an "F" because her third-grade teacher felt it was an unrealistic fairy tale, for there were no female airline pilots at the time. However her father has a different reaction to the paper. He was a crop duster and told Jean, "You can do anything you want." Jean credits her father for the determination it took to prove the naysayers wrong and do what "couldn't be done."

Jean enrolled at the University of North Dakota in 1971, and she soon joined the Delta Zeta Sorority. As an aviation major, she quickly became friends with the Delts, who were the "aviation fraternity" on campus. When Jean enrolled there were still no women airline pilots. But, taking the chance, she was still willing to spend the time to get her ratings and flying hours. During the four years, she became UND's first female flight instructor, and held a variety of jobs such as cloud seeder, night airmail pilot, and charter pilot.

One of her favorite gifts was from fellow flight student Tracy Van Den Berg '77 who told her that Frontier airlines had hired Emily Howell. She remembers thinking "Oh my God, It happened. The last obstacle has fallen. I finally have an honest to goodness role model."

After graduating in 1975, the airline industry was in a down cycle and were not hiring. After several years of flying in a number of jobs, she met Vic Harper, her future husband, flying for Meridan Air Cargo. She used to switch shifts with Vic's co-pilot so they could fly together. Three years after they met, they married. Jean then landed a job as a 727 flight engineer with United Airlines. In her 15 years with united has been in the cockpit of 727's, 737's, 757's, and 767's.

Jean and Vic have successful juggled two airline careers with two children - Annie 7, and

Sam 3. In 1985, Jean became United's first pregnant pilot, before United had a maternity leave policy. Jean and Vic currently reside at 8529 East Nichols Avenue, Englewood, CO 80112.

## Controversy surrounds Greek computers

Heated debate over student funding for greek computers have left campus students in rage. The problem arised when student body president Scott Aiserman approved matching funds for each Fraternity and Sorority to receive one computer. Approved because two years ago student funds were given to residence halls to purchase computers. The Greek community believes that the student senate is acting justly. But those in residence halls fell they have been treated unfairly because the Greeks represent a small portion of the campus and do not deserve special privileges.

At the center of this conflict is the University newspaper *The Dakota Student*. On one side, articles have been written expressing extreme concern over the "obvious favoritism" towards the Greek System. Comparing this incident to the same kind of prejudice experienced by blacks in the 1950's. While the Greek community has been quick to respond. "If the Greek populations less than 12 percent, we along do not elect the student senate."

## Are you Going to Be there?

If you are planning on being at the 75th Anniversary of our existence at UND next spring, please send us a postcard with your name, address, telephone number and graduation year to:

We have already recieved a letter from J.Paul Robinson class of 1932 who informs us that he will be in attendance.

We are also excited to announce that Delta Tau Delta's own international president Norville Stevens will be in attendance.

Alumni Relations Chairman

Grand Forks, ND 58203

or call Matt Oosting at (701) 775-7234

## DONATION ANYONE???

Do you happen to be in possession of any of these items?

- ☐ IBM Compatible Computer, Laser Printer
- ☐ Current reference books for Chapter Library
- ☐ Fax Machine
- ☐ Heavy duty vacuum cleaner
- ☐ Beta Chi pledge pin
- ☐ Beta Chi badge
- ☐ Any, Beta Chi ritual paraphernalia or information
- ☐ Beta Chi password
- ☐ Delt pledge pin before 1950
- ☐ Old Beta Chi or Delt photographs for the archives

If you do, and would like a good home for this stuff, we would really appreciate the donation. If it has educational value, a tax deductible Foundation. Please contact or send to:

Mike Otremba, President  
Delta Tau Delta Fraternity  
2700 University Avenue  
Grand Forks, ND 58203  
(701)-795-0208

## Greek Week 1993

Greek week this year was April 18-23. We were teamed up with the Sorority Delta Delta Delta and the Fraternity Pi Kappa Alpha for the weeks activities. Everyone gave it there all despite finals only being a week away.

The Week started on Sunday with Philanthropy day for the Greek system. There was a children's carnival in the memorial Union ballroom from 2-5, where each chapter had a booth to give away prizes. For our project we constructed a Plinko board, and judging by the kids reaction it was a huge success.

Monday was the annual Greek Banquet. The night consisted of several award presentations, and a special tribute to Gordon Henry the retiring vice-president of Student Affairs and a strong contributor to the Greek community.

On Tuesday we participated in the first annual 3 on 3 basketball tournament, taking third place with the help of the recent alumni John Bos.

Then on Wednesday we participated in the in the Greek Games, with such activities as Musical chairs and Simon Says. In which we also ended up in third place after stiff competition.

Thursday night was the convocation and awards ceremony. Where we listened to a multicultural awareness presentation and discovered that we had received more points than any other Fraternity on campus for the Presidential Award for Greek Excellence. That was an honor to be extremely proud of and to help build our future. The week ended with the Lip Sync contest.

Greek Week was '93 was a lot of fun, and I know everyone is going to be fired up and win Greek Week '94.

Fraternally,  
Shawn Gray

(STAN MOE Cont.) Working several years in the Twin Cities and Duluth areas after graduation, Moe dedicated two years to designing military facilities in Africa during World War II. Then, in 1947, he moved to Los Angeles where he established a successful firm. During the Korean years, "non-essential" construction was curtailed, so Moe left his company and became a shareholder of Daniel, Mann, Johnson and Mendenhall.

When DMJM began, it was a small company which concentrated on designing school buildings. In the next 20 years, the business grew to more than 1,000 employees in the US., with offices and hundreds of employees around the world. Moe played a major role in the overseas expansion of the company by overseeing the firm's first project in Japan in 1952. He is a pioneer in his profession by expanding architecture and engineering service to an international scale, who established more than two dozen foreign operations himself, while few firms were engaged in international work. He managed European operations until 1956, when he returned to the US. to become DMJM's general manager and executive vice president. At DMJM, Moe held the positions of vice president, partner, principal owner, and member of the DMJM Board of directors.

DMJM had a major impact on the US. space program, beginning with the design of the launch pad for the first manned space flight at Cape Canaveral, Florida and later with the design of many research, manufacturing and launch facilities for other aerospace programs, including the space shuttle. Clients were most of the major companies in the industry, as well as the US. government.

Moe had a significant role in the US. space program through organizing and directing the firm's many design efforts relating to both military and non-military space programs of the US. government involving such vehicles as the Atlas, Jupiter, Thor, Titan I, the lunar excursion module and the space shuttle.

As chairman of the control committee of a joint venture, he directed the design of all prototype and training facilities for the Titan I missile system as well as several of the operational bases. He also personally directed

the design of several of the ground support and launch related facilities for the space shuttle program on both the East and West coasts.

He has worked on international projects to benefit underdeveloped parts of the world, which have raised the standard of living in those areas. Some of these projects include the drilling of 400 water wells in northeast Thailand, establishing regional highway departments in the Cameroons, and developing a system of elementary schools in rural Jordan. He organized the master plans for two large medical centers and supporting communities in Saudi Arabia, with total project costs in excess of \$3.5 billion. He has organized and managed very large projects on a world-wide basis.

Active in many professional organizations, Moe has memberships in the American Institute of Architects (AIA); the California Council, AIA; the Society of American Military Engineers; and the Far East Society of Architects and Engineers. He received the UND Sioux Award in October 1985.

He received recognition through feature stories in *Fortune*, *Business Week*, *Engineering News Record*, *Consulting Engineer*, and several other trade publications. Before retirement, he wrote several articles on management of A-E firms. Moe and his company received many awards for design and technical achievement. Stan and his wife, Doris, live at 447 South Plymouth Blvd, Los Angeles CA 90020, and in retirement enjoy international travel and photography.

### On the lighter side...

Why is it when packages are transported by ship they are considered *cargo*, and when they are transported by car they are called *shipment*?

### **Congratulations to our graduating Seniors**

The following men will earn their degree this semester or this coming summer.

1. Todd Lanier
2. Shawn Nezerka
3. Hunter Bass
4. Curt Merden
5. Brad Schumacher
6. Travis Hall
7. Lee Fixen
8. Suresh Rabindran
9. Mike O'Brian
10. Scott Richards
11. John Niemeyer

**Good Luck Guys!**

### **Pledge Presidents Report**

The Pledge Class attended Delts Talking about Alcohol Sunday April 4th.

Our Spring projects include painting the garage and the stripes in the parking lot. We also planned and organized a social function, Spring Blast 1993, which was a huge success.

One of our pledge brothers, Edward Demontigny was elected president of the University of North Dakota Indian Association. Congratulations Ed.

And we are looking forward to Delt Development Week this fall. We also would like to make a special thanks to our pledge educator, Bill Dolny for making our pledge class a huge success.
